Kirkwood, CALIF. – Nov. 26, 2024 – With 29 inches of new snow and an incredible effort by its Mountain Operations and Snowmaking teams, Kirkwood Mountain Resort is thrilled to welcome guests back to the slopes for another unforgettable winter season, starting on Saturday, November 30 – six days earlier than scheduled. With the 2024/25 season officially starting early, now is the perfect time to lock in access to Kirkwood, Heavenly, Northstar, and other world-class resorts before [Epic Passes](#) go on sale on December 2.

On Opening Day, guests can look forward to skiing and riding on Chairs 5, 6, 7, and 9 from 9am to 4pm. These four chairs will offer access to 365 acres of terrain and

one terrain park. The resort's Snowmaking and Mountain Operation teams will continue making snow when temperatures are low enough and monitoring conditions to expand terrain and lift offerings for the weeks ahead.

Kirkwood's Opening Day promises to be a fantastic kickoff to the season, with terrain for all skill levels ready to enjoy. The early-season footprint includes top-to-bottom runs, a mix of beginner-to-advanced terrain, and our Time Square Pocket Terrain Park to jumpstart the winter fun. Gear rentals will be available daily from 8:30am to 4:30pm at Kirkwood Mountain Sports and Village Rental. Private lessons will launch on Opening Day on a first-come, first-served basis. Fuel your day with coffee from the General Store or try out our exciting new menu offerings at Monte Wolfe's and Snowshoe Thompsons.

"Our team is thrilled to kick off the 2024/25 winter season earlier than planned here at Kirkwood," said Ricky Newberry, VP & GM of Kirkwood Mountain Resort. This program will kick off in Mid-December on weekends (Saturday - Sunday) and peak periods in all lots – more details can be found on the "[Getting Here & Parking](#)" webpage. As always, carpooling is highly recommended any time guests visit the resort.

New this season, the My Epic app will include the Find My Friends feature, allowing skiers and riders to share their location with friends and family on the mountain. Additionally, the My Epic app will feature My Epic Assistant An in-app guide powered by AI and resort experts for mountain information. The My Epic app also offers a range of guest-favorite features, including interactive trail maps, and mountain and resort alerts, including operational information like grooming updates, terrain status, snow reports and conditions.
