Here's our pre-winter checklist to start preparing now for the 2024/25 ski and ride season:

✓ Discover what's new at your favorite mountain destinations in the Northeast

Vail Resorts' eight ski resorts in the Northeast are gearing up for winter with capital investments, exciting new tech and a robust lineup of new and returning events.

New York

This season **Hunter Mountain**, nestled in the Catskills, is celebrating 65 years with two [Epic Lift Upgrades](#) and a major automated snowmaking installation. Since opening on January 9, 1960, with the original "B" Lift in operation, Hunter Mountain has a history of innovation in the industry, from being the first ski resort in New York to install snowmaking to being the first in the U.S. to install an automated snowmaking system. While the resort has grown and evolved over the decades with new lifts and new peaks, it still boasts the same energy and sense of adventure, providing skiers and riders a destination to learn, progress and challenge themselves.

New for the 2024/25 winter season, Hunter is adding 70+ automated snow guns and the Epic Lift Upgrade of the Broadway Lift and E Lift. Together, these new enhancements will allow the Hunter team to produce more snow faster and increase uphill capacity, giving guests more time on snow, elevating the experiences of both beginner and advanced skiers and riders.

Vermont

At **Stowe Mountain Resort**, the Ski Capital of the East, there is something for everyone, from Pass Holder appreciation events to Skål Summit Toasts to robust Ski and Ride School programming. **Mount Snow**, home to the east's most powerful snowmaking system, has big plans for its 70th season with a full calendar of new and returning signature events including two weekends of [Oktoberfest](#) (Oct. 5 & 12), the Carinthia Classic, ReggaeFest and more. At **Okemo Mountain Resort**, the team is excited to welcome back guests for another season of fun. Whether for a weekend away or an annual family vacation, Okemo's vast terrain and endless après offerings will make it one to remember.

New Hampshire

In New Hampshire, fresh off the heels of two Epic Lift Upgrades from the last two seasons **Attitash** is preparing for its 60th season. Down the road at **Wildcat**, you can ski or ride like a local on the longest novice trail in the Granite State, take in the scenic views of Mount Washington, and test your skills on 2,100 feet of vertical. Southern New Hampshire's proximity to large metro areas is the perfect place to welcome new guests into the sport, and skiers and riders of

Crotched and **Mount Sunapee** will find new and expanded lessons and development programming this season. From the dedicated learning area of South Peak to the steep slopes of North Peak, Mount Sunapee has something for everyone. And at Crotched, the party continues this season with Midnight Madness and day to night skiing and riding.
