

Heavenly, Northstar, and Kirkwood Set to Open for 2023/24 Winter Season

Lake Tahoe, CALIF. - November 20, 2023 – Three of Lake Tahoe’s premier resorts are gearing up for another unforgettable season as they begin spinning their lifts and welcoming guests back for the 2023/24 ski and ride season. After a slight delay due to warmer temperatures, Heavenly Mountain Resort will now open on **Tuesday, November 21**, with Northstar California to follow on **Thursday, November 23**. Kirkwood Mountain Resort is scheduled for **December 1**.

Limited early season terrain will be accessible, with more to follow as conditions permit. Lifts start spinning at 8:30am at Heavenly and Northstar and 9am at Kirkwood on opening day and include:

- Heavenly: Tram, Patsy’s, Powderbowl
- Northstar: Big Springs Gondola and Vista
- Kirkwood: Chair 5

Guests visiting Heavenly for opening day on Tuesday can enjoy skiing and riding with an opening day footprint on the California side, along with sightseeing via the Gondola to take in the iconic Lake Tahoe views the resort is known for. Enjoy good eats and après at California Lodge, Umbrella Bar, Stein’s, and Tamarack Lodge. The resort will also have DJs on-mountain and at the base to bring the beats and celebrate the start of the season.

In addition to spinning lifts on Thursday, Northstar will be hosting a grand opening for [VOUS](#), its new café in the Village, on Friday, November 24. After a day on the slopes, guests can enjoy a yummy meal at Wild Pine and opening day après with a drink from Rink Bar and s’mores by the fire. The ice-skating rink will also open Wednesday, November 22.

At Kirkwood, guests will be able to ski and ride early season terrain off of Chair 5. The Wall Bar and Monte Wolfe’s will also be open, along with K-Bar, located at the center of Kirkwood Village, to be open on December 1. Ski and Ride School has limited private lessons available for booking and will begin scheduling group lessons once terrain begins opening up beyond the early season footprint.

All three resorts will continue to make snow and monitor conditions to determine when to expand terrain and lift offerings following their official opening.

“We have been waiting in anticipation to pull out our skis and snowboards again, and the time is finally here,” said Tom Fortune, VP and COO of Heavenly and the Tahoe Region. “Our committed teams have been working in high gear as we ramp up operations, and I am so thankful for all their contributions as we inch closer to ski and ride season. We cannot wait to welcome all our guests back to our mountains to get back to doing what we all love.”

Importantly, new this year, Heavenly and Northstar will be offering guests several choices for parking this season, with a combination of both free and paid parking options, including a new reservations-based paid parking program starting Mid-December on weekends (Saturday - Sunday) and peak periods at select parking lots – more details can be found on the “Getting Here & Parking” pages on the [Heavenly](#) and [Northstar](#) websites. As always, we highly encourage carpooling any time you visit our resorts.

Also new this season, the [My Epic app](#) with Mobile Pass and Mobile Lift Tickets is now available to download, allowing guests to use their phone as their ticket to the slopes. Mobile Pass and Mobile Lift Tickets is a hands-free option for skiers and riders to use at all 36 of Vail Resorts' owned and operated U.S. resorts for the 2023/24 season, with availability at Whistler Blackcomb to follow in future seasons. It allows guests to buy their pass or lift ticket online, activate it in the new My Epic app, put their phone in their pocket, and get scanned, hands free in the lift line using Bluetooth® technology designed for low energy usage to minimize the impact on a phone's battery life. This season, to ensure a smooth transition, the company will continue to provide physical cards for passes and lift tickets to all guests. For guests choosing to use Mobile Pass this season, watch this video for some tips. The My Epic app also offers a range of guest-favorite features, including interactive trail maps with GPS location tracking, and mountain and resort alerts, including operational information like grooming updates, terrain status, snow reports and conditions.
